EDUCATION

University of Maryland, College Park

Bachelor of Science in Computer Science

College Park, MD

Aug. 2022 – Present

– **GPA: 3.713/4.00; Dean's List (2023–2024)**

– Relevant Coursework: Data Structures, Computer Graphics, Mobile App Development, Algorithms, OOP, Linear Algebra, Probability and Statistics

Angelo State University

Bachelor of Science in Computer Science (Transferred)

San Angelo, TX

Aug. 2020 – May 2022

– **GPA: 3.96/4.00; Dean's List (2020–2022)**

EXPERIENCE

TOD Surveillance Operator

Republic of Korea Army, GOP Frontline

Jan. 2024 – July 2025

Goseong, Gangwon-do

- Operated TOD surveillance systems for 24/7 monitoring of frontline coastal areas under high-security conditions
- Coordinated real-time threat reporting with squad members in time-critical scenarios, reinforcing operational discipline and team communication

PROJECTS

GhostDieDie | *React, Three.js, React Three Fiber, MediaPipe, WebSocket, WebRTC, FastAPI* Apr. 2026

- **Won Best Razzle Dazzle Hack at Bitcamp 2026 among 600+ participants**
- Built a real-time multiplayer browser fighting game controlled entirely by webcam using MediaPipe pose detection and React Three Fiber
- Optimized body landmark tracking from 33 to 13 key points to ensure smooth performance on lower-end hardware
- Ported the full computer vision pipeline from Python to JavaScript, eliminating install requirements and reducing latency
- Integrated WebSocket for real-time game state synchronization and WebRTC for live opponent video streaming

AI Fitness Planner | *React Native, FastAPI, Claude API, Firebase*

Jul. 2025 – Jan. 2026

- Collaborated in a 4-member team to develop a fitness planning app with AI-generated workout and nutrition plans
- Designed prompt engineering pipeline with Claude API to generate personalized plans based on user profile and goals
- Built React Native frontend with calendar-based tracking and FastAPI backend integrated with Firestore

RouteN | *Flutter, Firebase (Firestore, Auth, Storage), Google Maps API, Dart*

June 2025 – Aug. 2025

- Developed a travel app with Firebase backend, enabling destination search by city, date, and theme with Google Maps-powered recommendations
- Implemented a user review system with photo uploads, 5-star ratings, likes, and itinerary-linked reviews
- Integrated Firebase Authentication and Storage for secure user management and image handling

EXTRACURRICULAR ACTIVITIES

Fundraise Event Chair

Korean Undergraduate Student Association (KUSA), University of Maryland

Aug. 2023 – Dec. 2023

College Park, MD

- Organized and led fundraising events, coordinating logistics, budgeting, and marketing in collaboration with the executive team and external partners

TECHNICAL SKILLS

Languages: Python, Java, C/C++, JavaScript, TypeScript, Dart, Ruby, HTML/CSS

Frameworks & Libraries: React, React Native, Flutter, Three.js, React Three Fiber, Node.js, FastAPI, TailwindCSS

Cloud & Backend: Firebase, Supabase, WebSocket, WebRTC, Claude API

Developer Tools: Git, GitLab, MediaPipe, Blender, VS Code

AWARDS & HONORS

Best Razzle Dazzle Hack, Bitcamp 2026 (among 600+ participants); **Dean's List**, University of Maryland (2023–2024); **Dean's List**, Angelo State University (2020–2022)
